SUBJECT INDEX, VOLUME 17

A

PAGE

Abandoned lands, chemical versus mechanical fallow of 548
Absorption and penetration, of picloram in potato tuber discs.. 311
Absorption and translocation of 2,4-D and picloram in field bindweed, effect of growth stage on..... 436
Absorption and translocation, of 2,4-D by wolftail..... 401
Absorption and translocation, of pyrazon by plants..... 365
Absorption and translocation, of simazine in parrotfeather.... 431
Absorption and translocation of 2,4,5-T in woody plants, effects of light intensity on..... 320
Absorption, foliar and root, of atrazine by giant foxtail..... 251
Absorption of *s*-triazines, by soil organic matter..... 417
Adsorption, volatility, and migration, of thiocarbamate herbicides in soil 148
Age, burial, and region, effects on germination and viability of halogeton seed 63
Alfalfa, precision placement of herbicides for weed control in 46
Alfalfa, selective control of hoary alyssum in..... 99
Algae, soil, herbicidal effects upon growth of..... 110
Alligatorweed, effect of herbicidal treatment on carbohydrate level of 66
Amiben derivatives, effect of light on herbicidal activity of.... 520
Amiben derivatives, phytotoxicity and movement in soil..... 170
Amiben, naptalam, and dinoseb, response of weeds and soybeans to 446
Amiben-organic matter interaction, on nodulation and growth of soybeans 264
Ammonium thiocyanate, effects on carbohydrate metabolism in cotton 362
Antagonistic responses, with combinations of carbamate and growth regulator herbicides 307
Application time and method, influence on Turkey oak response to picloram plus 2,4-D 87
Aquatic plants, effect of simazine on photosynthesis in 56
Aquatics, rooted, factors affecting growth of 412
Arsenic analyses, plant and soil 536
Arsenicals, organic, effects on cotton response and chemical residues 37
Assimilates and dalapon, translocation in johnsongrass 314
Astragalus miser Dougl. ex. Hook, distribution of mixerotoxin in 236
Atrazine, 2,4-D, oil, and combinations, meiotic and morphological response to 8
Atrazine, degradation in soil 202
Atrazine, degradation in Hawaiian soils 509

B

Barnyardgrass and yellow foxtail control, by linuron and row spacing in soybeans 489
Bensulide, DCPA, and siduron in turfgrass, bioassay for 31
Big sagebrush and green rabbitbrush, control with 2,4-D and picloram 233
Bioassay, for bensulide, DCPA, and siduron in turfgrass 31
Bioassay, plant, fungi cultures, and nitrification, bromacil interactions in 460
Bioassay test, cucumber, for soil residues of certain herbicides 309
Biochemical basis, for plant competition 338
Birdsfoot trefoil, placement of EPTC-fertilizer when seeding... 108
Bluegills, effects of diuron on 497
Brassicas, analogs of propachlor for control of lambsquarter and matricaria in 124
Bromacil interactions, in plant bioassay, fungi cultures, and nitrification 460
Bud growth and ethylene evolution, chemical stimulation of.. 353
Bud ontogeny and seedling development, in western ironweed 83
Burial, region, and age, effects on germination and viability of halogeton seed 63

C

PAGE

Canopies, foliar, effect on weed seed germination of light filtration by 48
Carbamate and growth regulator herbicides, antagonistic responses with combinations of 307
Carbohydrate level of alligatorweed, effect of herbicidal treatment on 66
Carbohydrate metabolism in cotton, effects of ammonium thiocyanate on 362
Carbon, activated, and other absorbents, inactivation of herbicides by 16
Carbon, activated, effect on phytotoxicity of herbicides in soil 189
Carrot and common ragweed, selectivity of linuron on 216
$^{14}CO_2$ fixation, in cotton and soybean, effect of prometryne on.. 122
Chemical composition, of *Potamogeton* and *Myriophyllum* in New Jersey 219
Chemical versus mechanical fallow, of abandoned lands 548
2-Chloro-2',6'-diethyl-N-(methoxymethyl) acetanilide, phytotoxicity, leachability, and site of uptake of 441
Chloropropham vapors, effects on dodder seedlings 238
Climate and soil, effect on herbicide dissipation 241
Combinations, of carbamate and growth regulator herbicides.. 307
Combine, self-propelled, for harvesting research plots 479
Common lambsquarters and nightflowering catchfly, uptake, translocation, and fate of 2,4-D in 528
Common ragweed and carrot, selectivity of linuron on 216
Competition, between flax and wild buckwheat 380
Competition, between kochia and sugarbeets 464
Competition, plant, biochemical basis for 338
Competition, tall waterhemp in grain sorghum 214
Competition, weed, influence on sorghum growth 332
Competition, yellow foxtail in grain sorghum 211
Competitive effects, of annual weeds on Spanish peanuts 1
Concentration of herbicides, in live oak treated with 2,4,5-T and picloram 567
Control and ecologic studies, of Scotch thistle 60
Corn and soybeans, removal of giant foxtail from 281
Corn, sorghum, and soybeans, effect of weeds on harvesting efficiency in 438
Cotton and johnsongrass, translocation and metabolism of MAA-^{14}C in 421
Cotton and soybean, effect of prometryne on $^{14}CO_2$ fixation in.. 122
Cotton, effects of ammonium thiocyanate on carbohydrate metabolism in 362
Cotton, incorporation of preplant herbicides for 481
Cotton response, effects of organic arsenical herbicides on chemical residues and 37
Cotton, tolerance to diuron, fluometuron, norea, and prometryne 492
Countries, weed problems in developing 113
Cucumber bioassay test, for soil residues of certain herbicides 309
Cultivation and herbicides, for weed control in sugarbeets 456
Curly dock, effects of 2,4-D on 533

D

2,4-D, absorption and translocation by wolftail 401
2,4-D and picloram, absorption and translocation in field bindweed, as affected by growth stage 436
2,4-D and picloram, for control of green rabbitbrush and big sagebrush 233
2,4-D, atrazine, oil, and combinations, meiotic and morphological response to 8
2,4-D, dicamba, and picloram, response of soybeans to 388
2,4-D, 2,4-DB, and picloram, for goldenrod control in timothy 473
2,4-D, effects on curly dock 533
2,4-D plus picloram, influence of time and method of application to response of Turkey oak to 87
2,4-D, response of woody species to 2,4,5-T, picloram, and 40

SUBJECT INDEX, VOLUME 17

PAGE

2,4-D, uptake, translocation, and fate in nightflowering catchfly and common lambsquarters 528
2,4-DB, picloram, and 2,4-D, for goldenrod control in timothy 473
Dalapon and assimilates, translocation in johnsongrass 314
Dalapon, hydrogen bonding of 444
DCPA, bensulide, and siduron in turfgrass, bioassay for 31
Degradation, microbial, of five substituted urea herbicides 52
Desiccants, foliarly applied, effects on selected species under tropical environment 79
Dicamba, dissipation and phytotoxicity of 3
Dicamba, effect on flax at several stages 385
Dicamba, picloram, and 2,4-D, response of soybeans to 388
Dichlobenil, effects on fishpond environments 158
Dinoseb, amiben, and naptalam, response of weeds and soybeans to 446
Diphenamid, phytotoxicity of demethylated analogs of 284
Disappearance, of trifluralin from field soils 119
Dissipation and phytotoxicity, of dicamba 3
Dissipation, of herbicides at three soil depths 27
Diuron and linuron, persistence pattern in two soils 69
Diuron, effects of soil temperature and soil water stress on translocation of 304
Diuron, effects of bluegills 497
Diuron, fluometuron, norea, and prometryne, tolerance of cotton to 492
DMPA, plant growth regulator activity of isomers of 187
Dodder, control by soil-applied herbicides in the greenhouse .. 295
Dodder seedlings, effects of chloropropham vapors on 238
Dormancy, of wild oat seed 405
Downy brome, control by herbicides on rangelands 166
Downy brome, population dynamics of 20

E

Ecologic studies, and control of Scotch thistle 60
EPTC, effects of sicklepod fatty acids 335
EPTC-fertilizer placement, when seedling birdsfoot trefoil 108
EPTC, herbicidal activity of, importance of seed, root, and shoot exposure on 223
Equipment, for incorporation of herbicides 551
Ethylene evolution and bud growth, chemical stimulation of .. 353
Etymology, of herbicide 137

F

Fallow of abandoned lands, chemical versus mechanical 548
Fate, translocation, and uptake of 2,4-D, in nightflowering catchfly and common lambsquarters 528
Fertilizer-EPTC placement, when seeding birdsfoot trefoil 108
Field bindweed, effect of growth stage on absorption and translocation of 2,4-D and picloram in 436
Field pennycress life cycles, in the subarctic, as influenced by time of seed germination 563
Fishpond environments, effects of dichlobenil on 158
Flame-sprayer, laboratory 102
Flats, sprayer for application of herbicides to 263
Flax and wild buckwheat, competition between 380
Flax, reaction to dicamba applied at several stages 385
Fluometuron, and prometryne, response of soybean mitochondria to 192
Fluometuron, norea, prometryne, and diuron, tolerance of cotton to 492
Fumitory, response to various herbicides 355
Fungi cultures, nitrification, and plant bioassay, bromacil interactions in 460

G

Germination and seed dormancy, in ecotypes of johnsongrass .. 359
Germination and viability, of halogeton seed, effects of age, burial, and region on 63
Germination, weed seed, effect of light filtration by foliar canopies on 48
Giant foxtail, foliar and root absorption of atrazine 251
Giant foxtail, removal from corn and soybeans 281
Goldenrod control, with 2,4-D, 2,4-DB, and picloram in timothy 473
Grain sorghum, tall waterhemp competition in 214
Grain sorghum, yellow foxtail competition in 211
Grass control, selective, with siduron 181

PAGE

Green rabbitbrush and big sagebrush, control with 2,4-D and picloram 233
Growth characteristics and herbicide susceptibility, of Texas panicum 91
Growth of rooted aquatics, factors affecting 412
Growth of soil algae, herbicidal effects upon 110
Growth, photosynthesis, and respiration, effects of pyrazon on .. 344
Growth regulator activity, plant, of isomers of DMPA 187
Growth regulator and carbamate herbicides, antagonistic responses with combinations of 307
Growth regulators and herbicides, effects on germination of *Hydrilla* turions 299
Growth stage, effect on absorption and translocation of 2,4-D and picloram in field bindweed 436

H

Halogeton seed, effects of age, burial, and region on germination and viability of 63
Harvesting efficiency, effect of weeds on, in corn, sorghum, and soybeans 438
Harvesting research plots, self-propelled combine for 479
Herbicidal activity of amiben derivatives, effect of light on 520
Herbicidal control, of western ironweed 77
Herbicidal effects, upon growth of soil algae 110
Herbicidal treatment, effect on carbohydrate level of alligatorweed 66
Herbicidal treatment of woody plants, rainfall effects following 94
Herbicide dissipation, effect of soil and climate on 241
Herbicide equilibrium in soils, in relation to soil water content 514
Herbicide, etymology of 137
Herbicide performance, effect of simulated rainfall on 154
Herbicide placement in soil, plant response to 475
Herbicide susceptibility and growth characteristics, of Texas panicum 91
Herbicides and cultivation, for weed control in sugarbeets 456
Herbicides and growth regulators, effects on germination of *Hydrilla* turions 299
Herbicides, concentrations of, in live oak treated with 2,4,5-T and picloram 567
Herbicides, dissipation at three soil depths 27
Herbicides, effects on RNA and protein syntheses 556
Herbicides, effects on yews and Japanese maples 142
Herbicides, equipment for incorporation of 551
Herbicides, foliar applications, on johnsongrass 245
Herbicides, for control of live oak when applied at various rates and dates 373
Herbicides, for control of plains pricklypear in rangeland 408
Herbicides, granular, for woody plant control 538
Herbicides, inactivation by activated carbon and other absorbents 16
Herbicides in a tropical soil, effect of activated carbon on phytotoxicity of 189
Herbicides, organic arsenical, effects on cotton response and chemical residues 37
Herbicide's potential, predicting 290
Herbicides, precision placement for weed control in alfalfa ... 46
Herbicides, preemergence, response of Kentucky bluegrass to soil residues of 13
Herbicides, preemergence, soil moisture and effectiveness of ... 257
Herbicides, preplant, incorporation for cotton 481
Herbicides, response of fumitory to 355
Herbicides, response of tropical vegetation to 285
Herbicides, soil-active, for downy brome control on rangelands 166
Herbicides, soil-applied, for dodder control in the greenhouse 295
Herbicides, sprayer for application to flats 263
Herbicides, substituted urea, microbial degradation of five 52
Herbicides, woody plant shoot management and response to ... 175
Hoary alyssum, selective control in alfalfa 99
Hydrilla turions, effects of growth regulators and herbicides on germination of 299
Hydrogen bonding, of dalapon 444

I

Inactivation, of herbicides by activated carbon and other absorbents 16
Incorporation of herbicides, equipment for 551
Incorporation, of preplant herbicides for cotton 481

J

PAGE

Japanese maples and yews, effects of herbicides on 142
Johnsongrass and cotton, translocation and metabolism of MAA-^{14}C in 421
Johnsongrass, control on drainage ditchbanks in sugarcane 370
Johnsongrass, ecotypes of, seed dormancy and germination in .. 359
Johnsongrass, foliar applications of herbicides on 245
Johnsongrass, translocation of assimilates and dalapon in 314

K

Kentucky bluegrass, response to soil residues of preemergence herbicides 13
Kochia and sugarbeets, competition between 464

L

Laboratory sprayer-flamer 102
Lambsquarter and matricaria, control in Brassicas with analogs of propachlor 124
Leachability, site of uptake, and phytotoxicity of 2-chloro-2',6'-diethyl-N-(methoxymethyl) acetanilide 441
Legumes, paraquat for weed control prior to establishing 428
Life cycles, of field pennycress in the subarctic as influenced by time of seed germination 563
Light, effect on herbicidal activity of amiben derivatives 520
Light filtration by foliar canopies, effect on weed seed germination 48
Light intensity, effects on absorption and translocation of 2,4,5-T in woody plants 320
Linuron and diuron, persistence pattern in two soils 69
Linuron and row spacing, for control of yellow foxtail and barnyardgrass in soybeans 489
Linuron, on carrot and common ragweed, basis for selectivity of 216
Live oak, control by herbicides applied at various rates and dates 373
Live oak, herbicide concentrations in, after treatment with 2,4,5-T and picloram 567

M

MAA-^{14}C, translocation and metabolism in johnsongrass and cotton 421
Maples, Japanese, and yews, effects of herbicides on 142
Matricaria and lambsquarter, control in Brassicas with analogs of propachlor 124
Mechanical versus chemical fallow, of abandoned lands 548
Medusahead and other grasses, emergence from four seeding depths 376
Mesquite, a device for threshing seed of 302
Metabolism and translocation of MAA-^{14}C, in johnsongrass and cotton 421
Metabolism, of trifluralin in peanuts and sweet potatoes 206
Method and time of application, influence on Turkey oak response to picloram plus 2,4-D 87
Migration, adsorption, and volatility, of thiocarbamate herbicides in soil 148
Miserotoxin, in *Astragalus miser* Dougl. ex. Hook, distribution of 236
Mitochondrial oxidation, effect of pyriclor on 468
Mitochondrial response, soybean, to prometryne and fluometuron 192
Modes of action, of pyridazinone herbicides 541
Monoterpenes, quantitative aspects of phytotoxicity of 454
Movement and persistence, of picloram in pasture soils of Nebraska 486
Movement and phytotoxicity, of amiben derivatives in soil 170
Myriophyllum and *Potamogeton* in New Jersey, chemical composition of 219

N

Naptalam, dinoseb, and amiben, response of weeds and soybeans to 446
Nightflowering catchfly and common lambsquarters, uptake, translocation, and fate of 2,4-D in 528
Nitrifications, plant bioassay, and fungi cultures, bromacil interactions in 460
Nitrogenous materials, effect on uptake of triazine herbicides 192
Nodulation and growth of soybeans, organic matter-amiben interaction on 264

PAGE

Norea, prometryne, diuron, and fluometuron, tolerance of cotton to 492

O

Oil, atrazine, 2,4-D, and combinations, meiotic and morphological response to 8
Oil content, final formulation, response of turkey oak to 2,4,5-T as a function of 505
Organic matter-amiben interaction, on nodulation and growth of soybeans 264

P

Paraquat, for weed control prior to establishing legumes 428
Paraquat, soil bonding and plant response 448
Parrotfeather, absorption and translocation of simazine in 431
Pasture soils of Nebraska, picloram movement and persistence of 486
Peanuts and sweet potatoes, metabolism of trifluralin in 206
Peanuts, Spanish, competitive effects of annual weeds on 1
Penetration and absorption, of picloram in potato tuber discs 311
Persistence and movement, of picloram in pasture soils of Nebraska 486
Persistence, pattern for diuron and linuron in two soils 69
Photocontrol, of rough cinquefoil seed germination 144
Photosynthesis, in aquatic plants, influence of simazine on 56
Photosynthesis, respiration, and growth, effects of pyrazon on 344
Phytotoxicity, and dissipation of dicamba 3
Phytotoxicity, and movement, of amiben derivatives in soil 170
Phytotoxicity, leachability, and site of uptake of 2-chloro-2',6'-diethyl-N-(methoxymethyl) acetanilide 441
Phytotoxicity, of demethylated analogs of diphenamid 284
Phytotoxicity of monoterpenes, quantitative aspects of 454
Picloram, absorption and penetration in potato tuber discs 311
Picloram and 2,4-D, absorption and translocation in field bindweed, as affected by growth stage 436
Picloram and 2,4-D, for control of green rabbitbrush and big sagebrush 233
Picloram and 2,4,5-T, concentrations in live oak after treatment 567
Picloram, 2,4-D, and 2,4-DB, for goldenrod control in timothy 473
Picloram, 2,4-D, and dicamba, response of soybeans to 388
Picloram, influence on whitebrush 293
Picloram, movement and persistence in pasture soils of Nebraska 486
Picloram plus 2,4-D, influence of time and method of application to response of Turkey oak to 87
Picloram, response of woody species to 2,4-D, 2,4,5-T, and 40
Picloram, root-absorbed, distribution of 524
Plains pricklypear, control in rangeland with herbicides 408
Placement, of EPTC-fertilizer when seeding birdsfoot trefoil ... 108
Placement, precision, of herbicides for weed control in alfalfa 46
Plant and soil, arsenic analyses 536
Pondweed, sago, response to topgrowth removal 139
Population dynamics, of downy brome 20
Potamogeton and *Myriophyllum* in New Jersey, chemical composition of 219
Potato tuber discs, absorption and penetration of picloram in 311
Preventative weed control, status of 126
Problems, weed, in developing countries 113
Prometryne and fluometuron, response of soybean mitochondria to 192
Prometryne, diuron, fluometuron, and norea, tolerance of cotton to 492
Prometryne, effect on $^{14}CO_2$ fixation in cotton and soybean 122
Propachlor, analogs of, for control of matricaria and lambsquarter in Brassicas 124
Protein syntheses and RNA, effects of herbicides on 556
Pyrazon, absorption and translocation by plants 365
Pyrazon, behavior in soil 323
Pyrazon, effects on growth, photosynthesis, and respiration 344
Pyrazon, metabolism in sugar beets and soil 327
Pyriclor, effect on mitochondrial oxidation 468
Pyridazinone herbicides, modes of action of 541

Q

Quantitative aspects, of phytotoxicity of monoterpenes 454

R

Rainfall effects, following herbicidal treatment of woody plants 94
Rainfall, simulated, effect on herbicide performance 154

PAGE

Rangelands, downy brome control by soil-active herbicides on 166
Region, age, and burial, effects on germination and viability of halogeton seed 63
Residue, herbicide, removal from water, effect of simazine on 56
Residues, chemical, effects of organic arsenical herbicides on cotton response and 37
Residues, soil, of preemergence herbicides, Kentucky bluegrass response to 13
Residues, triazine, in soil, soybean injury from 35
Respiration, growth, and photosynthesis, effects of pyrazon on 344
Revegetation of rangelands, downy brome control by soil-active herbicides for 166
RNA and protein syntheses, effects of herbicides on 556
Root, shoot, and seed exposure, on herbicidal activity of EPTC, importance of 223
Rough cinquefoil seed germination, photocontrol of 144
Row spacing and linuron, for control of yellow foxtail and barnyardgrass in soybeans 489

S

Sago pondweed, response to topgrowth removal 139
Seed dormancy and germination, in ecotypes of johnsongrass 359
Seed germination, rough cinquefoil, photocontrol of 144
Seed germination, time of, effects on life cycles of field pennycress in the subarctic 563
Seed germination, weed, effect of light filtration by foliar canopies on 48
Seed, halogeton, effects of age, burial, and region on germination and viability of 63
Seed, mesquite, a device for threshing 302
Seed, root, and shoot exposure, on herbicidal activity of EPTC, importance of 223
Seeding depths, four, emergence of medusahead and other grasses from 376
Seedling development and bud ontogeny, in western ironweed 83
Selective control, of hoary alyssum in alfalfa 99
Selectivity, basis for, linuron on carrot and common ragweed 216
Shoot, seed, and root exposure, on herbicidal activity of EPTC, importance of 223
Sicklepod, petiolar fatty acids, EPTC effects on 335
Siduron, bensulide, and DCPA in turfgrass, bioassay for 31
Siduron, for selective grass control 181
Simazine, absorption and translocation in parrotfeather 431
Simazine, influence on photosynthesis of aquatic plants and herbicide residue removal from water 56
Site of uptake, phytotoxicity, and leachability of 2-chloro-2',6'-diethyl-N-(methoxymethyl) acetanilide 441
Soil, adsorption, volatility, and migration of thiocarbamate herbicides in 148
Soil algae, herbicidal effects upon growth of 110
Soil and climate, effect on herbicide dissipation 241
Soil and plant, arsenic analyses 536
Soil and sugar beets, metabolism of pyrazon in 327
Soil, behavior of pyrazon in 323
Soil bonding of paraquat, and plant response 448
Soil, degradation of atrazine in 202
Soil depths, three, dissipation of herbicides at 27
Soil incorporation, trifluralin persistence as affected by depth of 349
Soil moisture and effectiveness, of preemergence herbicides 257
Soil organic matter, absorption of *s*-triazines 417
Soil, phytotoxicity and movement of amiben derivatives in ... 170
Soil, plant response to herbicide placement in 475
Soil residues of certain herbicides, cucumber bioassay test for 309
Soil temperature and soil water stress, effects on translocation of diuron 304
Soil, transformation of solan in 471
Soil, tropical, effect of activated carbon on the phytotoxicity of herbicides in 189
Soil water stress and soil temperature, effects on translocation of diuron 304
Soils, field, disappearance of trifluralin from 119
Soils, herbicide equilibrium in, relative to soil water content 514
Soils, Hawaiian, degradation of atrazine in 509
Solan, transformation in soil 471
Sorghum, grain, meiotic and morphological response to atrazine, 2,4-D, oil, and combinations 8
Sorghum growth, influence of weed competition on 332

PAGE

Sorghum production, dryland, and weed control with minimum tillage 451
Sorghum, soybeans, and corn, effect of weeds on harvesting efficiency in 438
Soybean and cotton, effect of prometryne on $^{14}CO_2$ fixation in 122
Soybean, injury from triazine residues in soil 35
Soybean mitochondrial response, to prometryne and fluometuron 192
Soybeans and corn, removal of giant foxtail from 281
Soybeans and weeds, response to amiben, naptalam, and dinoseb 446
Soybeans, corn, and sorghum, effect of weeds on harvesting efficiency in 438
Soybeans, linuron and row spacing for control of yellow foxtail and barnyardgrass in 489
Soybeans, organic matter-amiben interaction on nodulation and growth of 264
Soybeans, response to 2,4-D, dicamba, and picloram 388
Sprayer-flame, laboratory 102
Sprayer, for application of herbicides to flats 263
Spraying individual trees, a method for 260
Status, of preventative weed control 126
Stimulation, chemical, of ethylene evolution and bud growth .. 353
Substituted urea herbicides, microbial degradation of five 52
Sugarbeets and kochia, competition between 464
Sugarbeets and soil, metabolism of pyrazon in 327
Sugarbeets, weed control with herbicides and cultivation in ... 456
Sugarcane, control of johnsongrass on drainage ditchbanks in 370
Sweet potatoes and peanuts, metabolism of trifluralin in 206

T

2,4,5-T and picloram, concentrations in live oak after treatment 567
2,4,5-T, effect on turkey oak as a function of final formulation oil content 505
2,4,5-T, effects during approach of woody plant dormancy 229
2,4,5-T in woody plants, light intensity and the absorption and translocation of 320
2,4,5-T, response of woody species of 2,4-D, picloram, and 40
Tall waterhemp, competition in grain sorghum 214
Temperature manipulation, of photocontrol of rough cinquefoil seed germination 144
Texas panicum, growth characteristics and herbicide susceptibility of 91
Thiocarbamate herbicides in soil, adsorption, volatility, and migration of 148
Thistle, Scotch, control and ecologic studies of 60
Threshing seed of mesquite, a device for 302
Tillage, minimum, for weed control in dryland sorghum production 451
Time and method of application, influence on Turkey oak response to picloram plus 2,4-D 87
Timothy, 2,4-D, 2,4-DB, and picloram for goldenrod control in 473
Topgrowth removal, response of sago pondweed to 139
Translocation and absorption of 2,4-D and picloram in field bindweed, effect of growth stage on 436
Translocation and absorption, of 2,4-D by wolftail 401
Translocation and absorption, of pyrazon by plants 365
Translocation and absorption, of simazine in parrotfeather 431
Translocation and absorption of 2,4,5-T in woody plants, effects of light intensity on 320
Translocation and metabolism of MAA-^{14}C, in johnsongrass and cotton 421
Translocation, fate, and uptake of 2,4-D, in nightflowering catchfly and common lambsquarters 528
Translocation, of assimilates and dalapon in johnsongrass 314
Trees, individual, a method for spraying 260
Triazine herbicides, effect of nitrogenous materials on uptake of 197
Triazine residues in soil, soybean injury from 35
Triazines, absorption by soil organic matter 417
Trifluralin, disappearance from field soils 119
Trifluralin, metabolism in peanuts and sweet potatoes 206
Trifluralin persistence, as affected by depth of soil incorporation 349
Trifluralin vapors in air, detection of 484
Tropical environment, effects of foliarly applied desiccants on selected species under 79
Tropical vegetation, response to herbicides 285

PAGE

Turfgrass, bioassay for bensulide, DCPA, and siduron in 31
Turkey oak response to picloram plus 2,4-D, influence of time and method of application on 87
Turkey oak, response to 2,4,5-T as a function of final formulation oil content 505

U

Uptake of triazine herbicides, effect of nitrogenous materials on 192
Uptake, translocation, and fate of 2,4-D, in nightflowering catchfly and common lambsquarters 528
Urea herbicides, substituted, microbial degradation of five 52

V

Vegetative reproduction, in western ironweed 104
Viability and germination, of halogeton seed, effects of age, burial, and region on 63
Volatility, migration, and adsorption, of thiocarbamate herbicides in soil 148

W

Weed competition, influence on sorghum growth 332
Weed control, in sugarbeets with herbicides and cultivation ... 456
Weed control, preventative, status of 126
Weed control with minimum tillage, in dryland sorghum production 451
Weed control, with paraquat prior to establishing legumes 428
Weed problems, in developing countries 113

PAGE

Weed seed germination, effect of light filtration by foliar canopies on 48
Weeds and soybeans, response to amiben, naptalam, and dinoseb 446
Weeds, annual, competitive effects on Spanish peanuts 1
Weeds, effect on harvesting efficiency in corn, sorghum, and soybeans 438
Western ironweed, herbicidal control of 77
Western ironweed, seedling development and bud ontogeny in 83
Western ironweed, vegetative reproduction in 104
Whitebrush, influence of picloram on 293
Wild buckwheat and flax, competition between 380
Wild oat seed, dormancy of 405
Wolftail, absorption and translocation of 2,4-D by 401
Woody plant control, granular herbicides for 538
Woody plant dormancy, effects of 2,4,5-T during approach of 229
Woody plant shoot management, and response to herbicides ... 175
Woody plants, light intensity and the absorption and translocation of 2,4,5-T in 320
Woody plants, rainfall effects following herbicidal treatment of 94
Woody species, response to 2,4-D, 2,4,5-T, and picloram 40

XYZ

Yellow foxtail and barnyardgress control, by linuron and row spacing in soybeans 489
Yellow foxtail, competition in grain sorghum 211
Yews and Japanese maples, effects of herbicides on 142
